Creative UI/UX Designer

(M/W/D)

What awaits you

We are looking for a creative **UI/UX designer (Product & Web)** with strong motivation to create inspiring products and websites, to develop the way we work, and to push boundaries for new kinds of user interfaces. Join our team of communication strategists, copywriters, service innovators, brand designers and developers, and help create corporate websites, creative campaign concepts and tools that users love. You'll work on concepts and designs for prototypes and iterate them until final implementation, whether it be for websites or other user interfaces. You'll be involved in user tests, coordinate with developers and take responsibility for your solutions towards our clients in workshops, meetings and presentations.

What you'll bring to the team

- A passion for UI design, contemporary typography, interaction design, novel user interfaces and technological trends

- Excellent visual design skills and experience in implementation within existing branding/CI guidelines

- The desire to understand the big picture and translate your vision into user-centric interaction design

- 1-2 years of work experience in designing and working with developers, preferably in an agency, tech or start-up environment.

- Excellent software knowledge of the Adobe Creative Cloud

- Experience in creating wireframes and interactive prototypes with programmes like Adobe XD, Sketch, Invision, FramerX, or Figma

- Good organisational skills and an eye for detail

- Fluent German and/or English skills, both spoken and written

Bonus skills

- An interest in motion design and/or the ability to create complex UI animations with programs such as Adobe After Effects

- Basic knowledge & a good understanding of front-end development (HTML, CSS, JavaScript, UI-oriented libraries) and technological standards (W3C, accessibility)

- A clear understanding of content management systems and the principles of search engine optimisation

- A passion for opening up new user interfaces such as Voice UI, Chatbots, VR and AR applications

What we offer you

- As part of our interdisciplinary UX team, you will be involved in every project, getting the chance to demonstrate your talent as well as take on direct responsibility and contribute to the way we work

- The unique chance to implement your skills and ideas with major brands and customers such as Klarna, Deutsche Bahn, VW, Pfizer and the German Federal Ministry of Economics

- An environment where UX, UI, service-design and branding are not developed separately, but understood as a whole.

- Regular workshops and team meetings with our international design team to further your professional skills.

- A beautiful new office in the heart of Berlin with an idea lab, café lounge area and a silent room.

- Flat hierarchies and supporting you in your personal development.

Who we are

Innovation and creativity, here at RCKT, they go hand in hand. We are founders, communicators, creators and strategists who find unique solutions to every challenge. That is how we make brands and companies successful in the digital age.
